

Key Stage 3 Curriculum

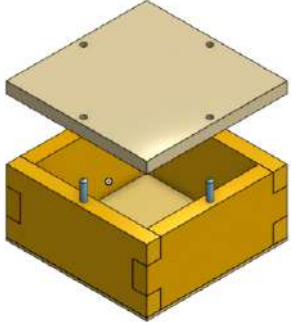

In each project, students learn about the category of material being used, and design, make and evaluate their products. Students are assessed on each of these skills: Design, Manufacture, Evaluation and Theory.

As students progress through KS3 they have more autonomy over the design of the products that they make.

Year 7

G1: Key Ring and Ruler	G2: Candle Holder	G3: Automata
		

Year 8

G1: CAD Clock	G2: Aluminium Light	G3: Wooden Box
		

Year 9

G1: Memphis Tidy	G2: MetalCraft Plant Pot Holder	G3: Flat Pack Animal
